Breadcrumbs

Each page needs to have a breadcrumb and a divider below the breadcrumb, when you create a new page, remember to have a breadcrumb for the user to navigate back. Do refer to each sample views **BreadCrumb.js** for more information.

Navigation & Side Bar

For the navigation top bar and side bar, refer to layouts > DashboardLayout ONLY. To edit the top bar, refer to TopBar.js To add more new navigation links to the fixed side bar refer to NavBar > index.js

The web design template is found in the CoreApp.Web folder on Github
https://github.com/UGS-CS/SLS-M00-Core/wiki/Web-UI-Design
